

PERSONAL BLOG ON IBM CLOUD STATIC WEB APPS

Problem Definition

The project aims to create a personal travel blog hosted on IBM Cloud Static Web Apps. The primary objective is to inspire others to explore the world, share travel adventures, tips, and captivating photos, with the goal of creating unforgettable memories. This involves designing a structured blog, crafting engaging content, setting up IBM Cloud Static Web Apps, and ensuring seamless updating capabilities.

Overview of the website

1. Home Page

- *The home page is the first point of entry for visitors and should provide an overview of the blog's content.
- *It typically includes a featured post or image slider highlighting recent or popular travel stories.
- *Navigation links to other key sections of the website should be accessible.

2. Blog Posts

- *This is the core section of the website where individual travel blog posts are displayed.
- *Each blog post includes a title, the author's name, the date of the post, a featured image, and the main content.
- *Users can browse and read through various travel stories.

3. About Me

An "About Me" page is essential to introduce the author of the blog. It should include a brief biography, the author's travel interests, and a photo. This page helps establish a personal connection with readers.

4. Destinations

*A dedicated section to showcase various travel destinations the author has visited.

*Each destination page provides detailed information, photos, and possibly travel tips and recommendations.

5. Photo Gallery

*A gallery displaying high-quality travel photos.

*Users can browse through photos from different destinations.

6. Contact

*A contact page with a form or contact details, allowing readers to get in touch with the author.

*This is essential for feedback, collaboration inquiries, and general communication.

7. Social Media Integration

Include social media buttons and links to the author's social profiles to promote engagement and sharing.

8. Newsletter Signup

Allow visitors to subscribe to the blog's newsletter to receive updates on new posts and travel tips.

9. Comments and Interactivity

Enable comments on blog posts to encourage reader interaction and discussion.

Implement sharing buttons to allow users to share content on social media.

10. Responsive Design

Ensure that the website is responsive, adapting to various screen sizes, including mobile devices.
